

Better data. Better analysis. Better action.

Take hold of a next generation advancement CRM built to help your team evolve its capabilities. Do more than just display your data—use built-in analytics to tailor strategies and maximize focus.

Key Capabilities:

Efficiency through built-in automation

Relationship management in one place

Workflows to improve receipting, matching gifts and stewardship

Next steps and tasks tailored to each user

A configurable platform built on Microsoft Dynamics

Increased constituent engagement through Anthology Encompass

Anthology Raise in Action

“With Raise, we have a modern advancement CRM that has opened up a whole new world. Everyone has their own view of the information, making us all more efficient. There are myriad things that you can do to make life easier, and we have so much more control over our daily processes.”

Jennifer Kenzor

Executive Director of
Advancement Services
